Methodology Diagram: Coffee Sales Prediction

1. Problem Definition
(Predict Coffee Sales Amount)

2. Data Collection
(Coffee Sales.csv Dataset)

3. Data Cleaning
(Remove '$' & Convert Date)

4. Feature Engineering
(Encode 'Country' & 'Product')

5. Train/Test Split
(80% Train, 20% Test)

6. Model Training
(Linear Regression)

7. Evaluation
(Measure Prediction Error)
